

COMPLETE™-AA

WOUND CARE

Multi-Layer Perinatal Tissue Allografts

COMPLETE™ - AA Wound Care Perinatal Tissue Grafts are processed to retain all naturally occurring extracellular matrix components

ABOUT COMPLETE™-AA

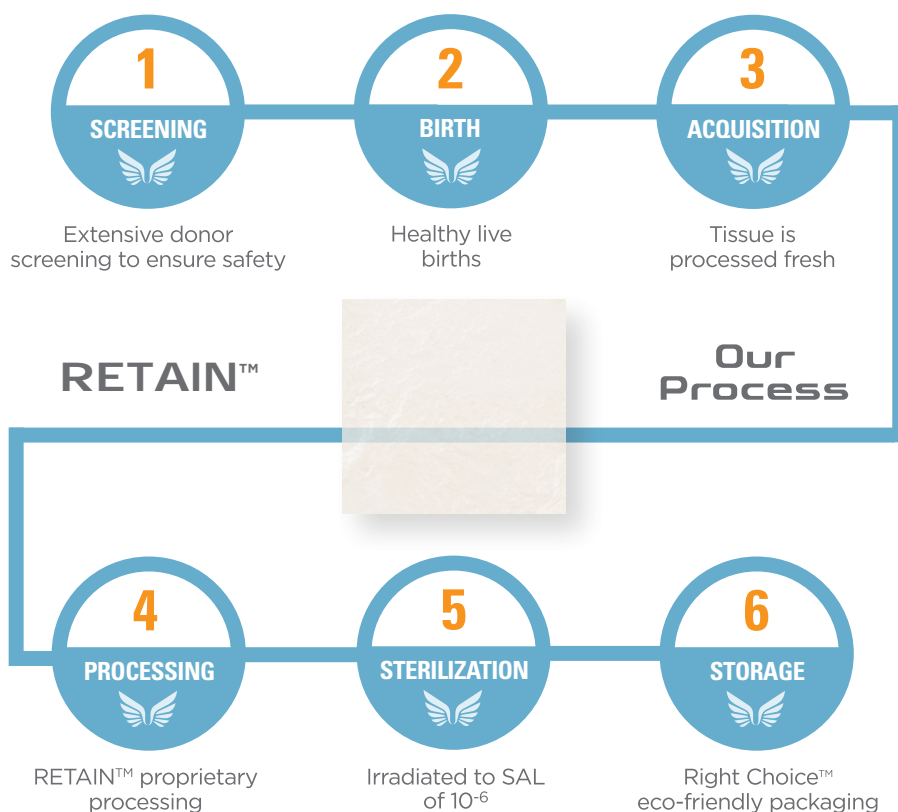

- Received TRIP and TRG designation as a 361 HCT/P allograft.¹
- Samaritan issued HCPCS Code Q4303 for COMPLETE™-AA Graft.²
- COMPLETE™-AA grafts are applied as an anatomical barrier providing mechanical protection.³

SAFETY

- Screened healthy mothers donate live birth tissue.
- COMPLETE™-AA grafts are processed in accordance with FDA regulations and AATB standards.
- Terminal Sterilization method provides sterility assurance level (SAL) of 10^{-6} .

EASY TO USE

- Best in-class graft handling.
- Ambient temperature storage with a 5-year shelf-life.
- Adheres easily to wounds of all shapes and sizes.

*The **RETAIN™** proprietary processing method eliminates harsh mechanical and chemical washes prior to sterilization to ensure maximal preservation and retention of the naturally occurring components of the birth tissue.*
