

Multi-Layer Perinatal Tissue Allografts

MLG-COMPLETE™ Wound Care Perinatal Tissue Grafts are processed to retain all naturally occurring extracellular matrix components and was issued Q4256 reimbursement code from CMS.

ABOUT MLG-COMPLETE™

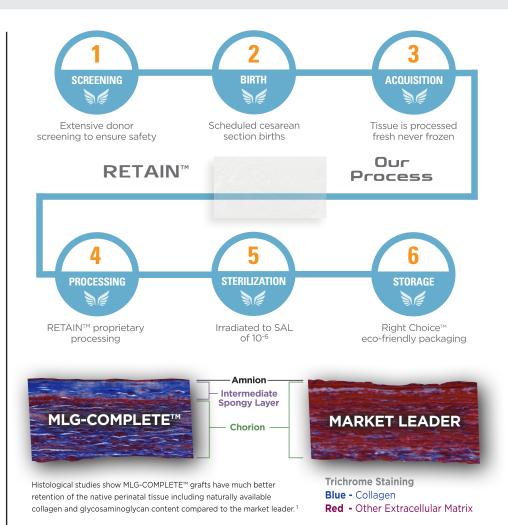

- Received TRIP designation as a 361 HCT/P allograft.¹
- CMS issued Samaritan HCPCS Code Q4256 as a skin subsitute.²
- MLG-COMPLETE[™] is applied as an anatomical barrier providing mechanical protection.³
- MLG-COMPLETE[™] is the COMPLETE perinatal membrane. All naturally occurring layers remain intact during and after processing.

SAFETY

- Screened healthy mothers donate tissue from scheduled Cesarean section births.
- MLG-COMPLETE[™] grafts are processed in accordance with FDA regulations and AATB standards.
- E-Beam sterilization provides sterility assurance level (SAL) of 10.⁻⁶

EASY TO USE

- Best in-class graft handling.
- Ambient temperature storage with a 5-year shelf-life.
- Adheres easily to wounds of all shapes and sizes.

The **Retain**[™] proprietary processing method eliminates harsh mechanical and chemical washes prior to sterilization to ensure maximal preservation and retention of the naturally occurring components of the birth tissue.

Right Choice Packaging

MLG-COMPLETE™ perinatal grafts are available in four sizes to optimize clinical usage and reduce waste.

Anatomic Sizing

Description	Code	Size	Units
MLG COMPLETE™ Wound	MLG-24W	2x4CM	8
MLG COMPLETE™ Wound	MLG-44W	4X4CM	16
MLG COMPLETE™ Wound	MLG-48W	4X8CM	32
MLG COMPLETE™ Wound	MLG-1520W	15X20CM	300

▶ Reimbursement Support

Samaritan offers comprehensive reimbursement support for all our customers via phone, fax or email.

Reimbursement Hotline: 858-477-8953

Email: Reimburse@samaritanbiologics.com • Fax: 855-729-5758

- Billing and Coding Questions
- Insurance Benefit Verification
- Prior Auth/Pre-Determination Requirements
- Templates for Letters of Medical Necessity
- Reimbursement Inquiries

Samaritan Biologics donates at least 10% of profits before any distribution to owners to JDRF. We are dedicated to turning Type 1 into type none.
